Sustainable development practices ensuring projects align with environmental standards.

GEOLOGICAL AND HYDROGEOLOGICAL

Comprehensive assessments providing critical insights into ground conditions and geological risks.

Our Business Approach

Mediterranean Oil and Gas Company FZE provides expert feasibility studies and project development solutions, offering client-focused, data-driven strategies that maximize investment value, ensure sustainable growth, and drive long-term success in the oil and gas sector.

VISION

Stability and Prosperity Through Energy Infrastructure.

MISSION

Deliver value for investors and partners by establishing and developing an Oil and Gas expertise company for engineering, prototyping, developing, manufacturing, selling, leasing, operating and maintaining advanced, modular, secured and environmental respectful O&G infrastructure, while creating an ecosystem of partners and research community, to enrich, improve and enhance our know how.

Business Approach

MEOGCO seeks to engage clients on long term business relationship, based on mutual value creation, in the field of O&G technologies and EPC services and consultancies. We aim to provide either directly or as subcontractors work packages or entire turnkey projects for our client with an on schedule, quality and cost performance.

About Us

Mediterranean Oil and Gas Company FZE Mediterranean Oil and Gas Company starts in 2025 by merging the experience of corporate veterans and Oil and Gas Specialists. The business idea is to exploit the broad experience and manpower available in the Middle East to Engineer, Procure, Construct and Operate strategic O&G Infrastructures, pipelines and storage farms, in the Medirerrean Sea region and close geographic areas.

Engineering the Future of Energy in the Mediterranean

Vision

***Stability** and **Prosperity** Through Energy Infrastructure.*

Mission

Deliver value for investors and partners by establishing and developing an Oil and Gas expertise company for engineering, prototyping, developing, manufacturing, selling, leasing, operating and maintaining advanced, modular, secured and environmental respectful O&G infrastructure, while creating an ecosystem of partners and research community, to enrich, improve and enhance our know how.

We Provide the 360° Degrees Turnkey Experiince

Mediterranean Oil and Gas Company FZE delivers turnkey solutions through integrated Engineering, Consulting, and Project Management. From feasibility and design to risk management, we cover the full project lifecycle. Our expertise includes pipeline corridor selection, GIS mapping, environmental and hydraulic studies, and CAPEX/OPEX planning—empowering clients to maximize performance and ensure safety in complex oil and gas projects across the Mediterranean and beyond.
